ALL EXCLUSIVE, IMMERSIVE DESTINATION EXPERIENCES

2021-2022 WINTER NORWAY INAUGURAL SEASON

Winter in Norway's north is a magical season when long shadows tint the rugged alpine ranges, gilding granite peaks draped in shining mantles of snow. Fjord villages sparkle with twinkling lights, and the crisp, clear air is spiced with woodsmoke, it is a time Norwegians treasure. They venture outside to ski and snowshoe and ride their dogsleds. We'll join them, cruising towering fjords and kayaking among the snow-covered islands. Nights on deck are lit by luminescent clouds of stars and – often – majestic Northern Lights soar in silent grandeur over the peaks and glistening waters.

Its looming cliffs rise directly from the sea to a plateau as flat as a table. At 71° 10’ 20” N latitude, it is just 1,306 mi/2012 km from the North Pole. Here the Norwegian Sea, part of the Atlantic Ocean, meets the Barents Sea in the Arctic Ocean.

TROMSØ, NORWAY (EMBARK/DISEMBARK)

Due to the warm Gulf Stream, **Tromsø’s** harbor remains ice-free in winter and its climate is milder than other towns at the same latitudes. Numerous polar expeditions have set off from here and both Roald Amundsen and Fridtjof Nansen frequently recruited Tromsø men for expeditions to both polar regions. Landmarks include the distinctive Arctic Cathedral, the Tromsø University Museum and the unique Polar Museum.

CRUISING THE NORWEGIAN FJORDS

A unique feature of fjords cruising is the hours-long panorama of scenic beauty and points of interest that unfurls on either side of your ship. Quaint villages nestle on shore and tiny farms cling impossibly to mountainsides. Waterfalls tinsel the slopes, frequently frozen into bizarre sculptural artforms. Your Expedition Team photography and video expert will be on deck offering tips to help you capture the stunning scenes. Other Expedition Team members will be around on deck or in lounges to interpret the scenes, talk about the geology and natural history, answer questions or just to chat.
